

QUARTERLY NEWSLETTER - SPRING 2026

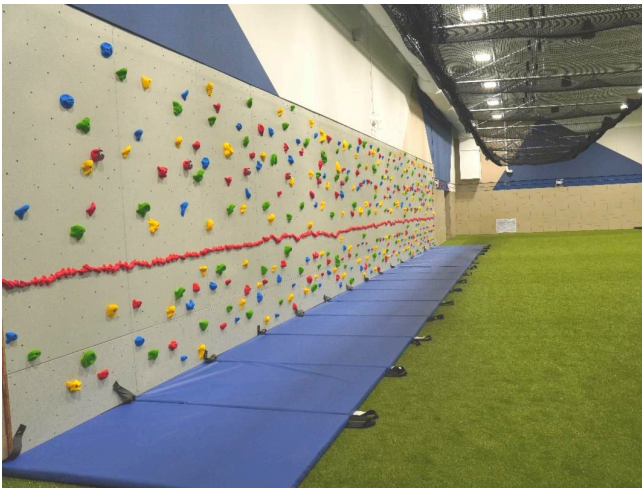

PROJECT SPOTLIGHT

Hudson, WI Schools

We are providing commissioning services for Hudson Schools - 2025 Addition/Renovation projects: Hudson North Elementary, E.P. Rock Elementary, and Hudson Middle School. These projects include additions, renovations, and significant system upgrades across all three buildings. Our work helps ensure systems are installed and operating as intended for long-term performance.

North View Middle School

We supported the transformation of ISD 279 Osseo Area Schools - North View Middle School with the conversion of the existing pool into a new multipurpose activity room. The former pool was infilled and reimagined into a flexible space for a variety of school activities, supported by new mechanical and electrical systems including updated HVAC, lighting, and power to create a comfortable, functional environment year-round, in addition to other renovation work completed throughout the school.
