QUARTERLY NEWSLETTER - FALL 2026

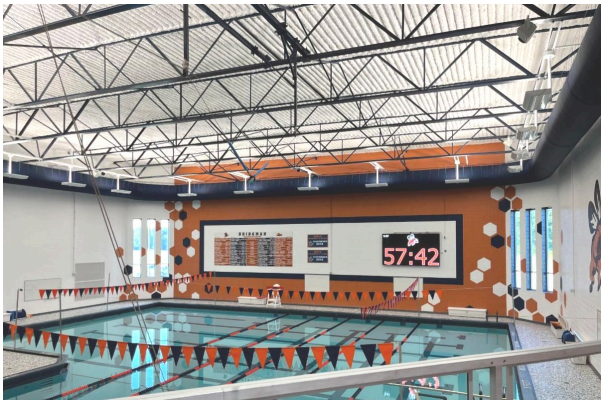

PROJECT SPOTLIGHT

UST - Schoenecker Nursing Build Out

We partnered with BWBR on the University of St. Thomas Schoenecker Nursing Build-Out, transforming approximately 8,000 square feet of vacant space in Schoenecker Hall into new facilities for the College of Nursing. The project includes simulation rooms, classrooms, offices, and support spaces, with new mechanical, electrical, plumbing, and fire protection systems designed to support nursing education and training.

Bridgman, MI Schools - Aquatic Center

We partnered with Pope Design Group to provide MEP engineering services for renovations at the Bridgman Aquatic Center in Michigan. The project includes a new pool HVAC system, upgrades to the fire alarm, pool treatment systems, plus renovations to the pool interior and deck. These improvements are designed to enhance air quality, energy efficiency, safety, and the overall experience for swimmers and facility users.
