HALLBERG ENGINEERING
Mechanical / Electrical / Commissioning

Introducing Our Executive Leadership Team

Hallberg Engineering is pleased to announce the formation of our new Executive Leadership Team, created to support the continued growth and success of our firm. Bernie Barrie, Dave Quigley, and Joe Vomela will serve as Vice Presidents on the newly formed team.

BERNIE BARRIE

VP/Sr. Project Manager

Bernie Barrie joined Hallberg Engineering in 2003 as a Mechanical Designer and has progressed through several roles including Project Manager and Senior Project Manager and most recently had served as the Mechanical Department Manager helping to provide leadership and technical oversight for the mechanical team. As Vice President, Bernie will continue to contribute to Hallberg's leadership and business development.

DAVE QUIGLEY

VP/Sr. Project Manager

Dave Quigley joined Hallberg Engineering in 2003 as an Electrical Designer and has grown with the firm throughout his career. He currently oversees Hallberg's Retail Department as the Retail Department Manager, providing support throughout the design process while managing project schedules and requirements to meet client expectations. As Vice President, Dave will continue to provide leadership and contribute to the firm's continued growth and success.

JOE VOMELA

VP/Sr. Project Manager

Joe Vomela joined Hallberg Engineering in 1999 as an Electrical Engineering Intern and has spent his career growing with the firm. He currently serves as a Senior Project Manager in the Electrical Department, managing K-12 projects while also supporting construction administration and electrical design. As Vice President, Joe will continue to bring his extensive focus to Client Satisfaction to his new leadership role.
